There is no extra fee for the exam; it is included in the cost of your certification course.

Convince Your Leadership

Why should your top management consider 'certifying' your staff with KMI?

KMI is the most trusted source in KM Certification for top-level management worldwide for:

❖ **Industry Best Practices...**

The CKM program teaches not just the foundation, but the best-known practices delivered by top organizations. Your staff will learn not just the 'academic' understanding, but will put these practices to work in our interactive, workshop format.

❖ **Proven Methods...**

The methods we teach are the methods the most successful KM Teams practice and utilize.

Popular techniques such as the "**Knowledge Cafe**" or "**Knowledge Transfer**" - are only taught in the KMI Certification program. Not just out of the book, these methods are being deployed worldwide, and the teams our students represent are the direct beneficiaries.

❖ **Diversity and New Perspectives...**

Public classes average 20 students per class, adding different perspectives representing public and private sectors, international organizations, and a full spectrum of experience - from newcomers to seasoned pros; an intangible benefit you can't script or teach.

❖ **The best "Bang for your Buck" Value...**

At KMI, we realize the standard approach of 'teach and test' and memory recall is not enough for someone to truly master the content.

Because of this, your staff's training does not end on Friday afternoon, but is just the beginning of our commitment for continuous learning. With our industry-exclusive "**Knowledge Hub**" - students learn from instructional videos on a variety of KM topics, delivered by expert Guest Speakers or Adjunct Faculty.

And, all students from our live classes gain access to the entire program online, via the **eCKM**. This means your team doesn't have to rely on the notes they took in class, but can reach back and review the critical modules they need months after class, on video, to truly master the content and keep it fresh.

In short, you need the confidence to know your team will come back from their training ready to roll up their sleeves and get to work. And, the fact that they are utilizing best practices and new knowledge/skills, successfully used by some of the most powerful organizations in the world, makes this the right choice for any organization.
